Photographs and other Visual Images – Child Consent Form

Preface

As an organisation, Life With Dignity works to maintain ethical standards and protect the dignity and rights of all people, especially children. To this end, we require all photographs, video footage or other visual representations where students are used in promotional material to be accompanied by a parent/guardian signed consent form.

Life With Dignity uses photographs and video to promote particular events or appeals relating to the work of the organisation or for educational purposes in schools, donor events or congregations – both in Cambodia and with donors overseas. These may be in print or digital formats.

The form below indicates that you give Life With Dignity permission to use photographs of your children understanding that **no names will be used**.

Statement

I (full name) give my permission to Life With Dignity to use photographs or other visual representation of my child and their story in publications produced by or for Life With Dignity.

I understand that these publications may also be placed on the Life With Dignity website.
